

What I have done in a day

- 2 post images for social media posting
- Create a product page for LinkedIn
- Create Facebook and LinkedIn event page
- 5 game ideas
- Counting time user interface (<https://www.figma.com/file/KuRbzIk6FzNXK5qVanjfr2/Untitled?node-id=21%3A24>)
- Counting time developer notes
- First Prototype presentation slide
- thefirstprototype.com website revision
- thefirstprototype.com logo revision
- Image manipulation

What I have learn today

There is a product page in linkedIn website, you can post some product you have already done and link to your customers.

What I find difficult:

Writing developer notes for developer, since I do not have experience as a mobile app developer and I am learning how to translate my design to developer.
